## THE NEWS OF THE WEEK.

A Daily Resume of Important Happenings.

It is said that last year the salaries of 23,000 elementary school teachers in Ohio averaged twenty-two dollars a day.

William Davis, market-electrician at the Frankfort penitentiary, was killed by drowning in contact with a "live" wire, which he picked up while trying to be dead.

Dr. William Bailey Upper, president of the University of Oregon, and one of the foremost educators of his time, died after long illness of internal disease.

Cal Newton, a Franklin school teacher, was convicted at Frankfort of the murder of George and James Smith, father and son, sentenced to life imprisonment.

The state now takes hold of tobacco in General Kentucky. The Agent states the taxes on tobacco products have all been paid and delivered in Monroe, Kentucky, and one-half cent has been easily dispensed of there, a seven and one-half cent tax on tobacco.

The Supreme Court of the United States has given its decision in the case of Golds Power v. Kentucky, which the case came up almost after the open mill was put into operation. The court will have the effect of postponing the hearing until about next July. The case originally was set for Oct. 1, 1905.

The House of Representatives unanimously adopted a resolution Jan. 20, after a heated debate. The new law provides a committee of five members to arrange a program and select a speaker for the occasion. At the House session, however, which was held yesterday, the practice was adopted to propose a new Committee of Revision.

Mrs. George H. Hopper, a 19-year-old young Chicago woman, was found dead with a telegram when discovered about her neck in her hotel room twenty-four years old. Her body lay in the body in an undressed状态. She had "discovered" it. Her clothes had been removed and were found in the room. She had been found dead in the room of the Hotel New York, New York, where she had been staying.

It appears that Mrs. Hopper had been engaged in a love affair with a man, who had been staying at the Hotel New York, and that she had been compelled to leave him. She had been staying at the Hotel New York, and that she had been compelled to leave him. He is being held in jail.

In response to many letters from friends, in fact, those who have died within the past few days and the survivors of those who have died off and on, and the death of many by disease, we are sending a letter to John in the New York office of the American Society of Friends, in behalf of the late James W. Johnson, the son of Senator James W. Johnson, who had been engaged in a love affair with a man, who had been staying at the Hotel New York, and that she had been compelled to leave him. He is being held in jail.

It appears that Mrs. Hopper had been engaged in a love affair with a man, who had been staying at the Hotel New York, and that she had been compelled to leave him. He is being held in jail.

Frankfort, Ky., Jan. 12. It is said that Senator James W. Johnson, the late Senator from New Mexico, who was to receive Monday morning a \$100,000 second-hand pistol will be far wider in Kentucky in the next few days than in all the years that have gone before him. Senator Johnson, preparing to defend the right or right of self-defense to all those who come to him or as far as it is shown that the assassin carried concealed a deadly weapon. The pistol has been given to governors, Senator Judson and others, and the prominent men who have been engaged in the solution of the reported weapon problem. Self-defense is almost the first plan in mind of the major trials which are held in Kentucky. Senator Johnson believes as follows that that plan of defense will be committed to a committee. It has been said that most of the men who are armed are looking forward to the day when they make an assault without self-defense. They believe the other men to be ready when they may make a bold defense plan.

## Wilton Company.

Owensville, Ky., Jan. 18.—A complete catalogue of the goods and services of the Wilton Lumber and Manufacturing Company of Owensville, which claim about two thousand dollars after the disappearance of the President, J. P. Morgan, has been issued in the office of Western Bookseller of this city. Reference is made to the Eastern Division of the Western Company, which has a well informed idea of what a good accommodation.

Several of our good citizens are making arrangements to move to West Virginia, thus Spring.

The handling and lumber shipping seem to be the order of the day. G. C. Williams.

President Roosevelt was initiated into the Improved Order of Red Men in his private office at the White House; he would do better to improve the Order of some of the so-called white men employed as flunkies and secretaries.

Editor Wilson, of the Vanceburg Sun, speaks as though he knew. The white merchants, he says advertises in the Sun, but some Vanceburg merchants prefer to advertise in an almanac which goes well, you all know where the almanac goes.

The Department of Agriculture is now undertaking to show the farmers how they can better raise tobacco. What the farmers would much prefer would be for Secretary Wilson to show them how to get more than 6 cents for it from the tobacco trust.

Gev Beckham has recommended to the State Capitol Commission that only a habitable Capitol be erected for the present, leaving the proposed ornamental features to future Legislatures. The estimates of the architect are regarded as too high and a general reduction is probable.

By a series of skillful questions, Otto M. James, of Kentucky, forced a Republican—Henry Cullen Adams, of Wisconsin—to lay at the door of the National Administration responsibility for the defeat of Myron T. Herrick for Governor of Ohio, the Democratic candidate.

We can foam all we care to about the "Beckham Machine," but we have the nerve to admit that we wish we had one that would run as smoothly and as successfully. It is ball-bearing all around, and glides along the way as a phantom sprite from hilltop to vale, while our old wagon hits every stone in the pike and jolts like the devil.—Grayson Tribune.

Representative Hughes, who is one of the strongest men in the West Virginia delegation, has introduced several bills which may be acted upon and if they are, will bring him more or less prominently before the public. One of these is to prevent bribery in elections, and is designed to carry out the recommendation of the "dent" in his message on the subject. On all issues it is agreed that Mr. Hughes has drafted an excellent bill for the correction of these evils.—Ceredo Advance.

Inquirer of recent date has the following of local interest:

Stone, Jay H. Northrop, the lumber magnate of Louisa, Ky., a veteran officer of the Civil War on the Union side, is at the Encamp. Colonel Northrop provided over the convention that first nominated Judge Thomas J. Parker for Congress at May 2 years ago, and he is proud of his protege will be declared United States Senator at Frankfort to-day. "Judge Parker is an able young man, who has grown up in the full requirements of every position he has ever held," remarked the Colonel, "and he will make his mark in the Senate now mind you."

The McKnight measure proposed to the Nineteenth and Twentieth districts, presided over by Judges Harbeson and Kline, by taking from the first named the counties of Lewis and Greenup, and from the second the county of Boyd, fails to take Judge Kline and his home county of Boyd, away from the other counties in his district now formed, Elliott, Morgan, Lawrence and Carter. This old district it is stated as the Thirty-second.

There is, of course, something in the work of redistricting. McKnight's measure would make many democratic districts and a Boyd-Greenup-Lewis district, largely Republican. Judge Kline's attorney J. W. M. Stewart, of Ashland and otherwise looking after the proposed legislation, Judge is sure to be blamed for objecting.

He is in a largely Republican Senator Watson, of the Boyd senatorial district, is working with them. It has been suggested that the county of Carter, instead of Boyd, be taken from Judge Kline's present district, and placed with the committee of the House in the next few days.

Senator Henry George is after the express companies, as he thinks they have been charging exorbitant rates in this State. He introduced a bill in the Senate to regulate the charges and to place said companies under control in the State Railroad Commission, on the same footing as railroads now are. And to this the people of the entire State say amen. Corporations are said to be soul-less, and most of them are, but the express companies cannot be said to be bloodless. If they have sucked the blood of the people, lo, these many years.

Two constitutional amendments have already been proposed in the Legislature, one, making a fourth qualification for a voter, and the other providing for taxes on income, or franchises.

Under the present statutes, blind and insane persons, persons in prison at the time of election and persons resting under conviction of crime are the only ones disqualified from voting. Representative H. K. Bourne has introduced a bill requiring voters to pay their taxes for the year next preceding the year they seek to exercise the right to suffrage. Mr. and Mrs. Roy Jordan, of Elizabethtown, and family, visited from St. Louis, Mo., relatives on Oct. 21.

By keeping the Ayer's Pectoral.

It cures the cough.

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, and heals. Sold for 60 years.

**P. H. Yates has some enterprises  
on the string for his property  
in the river, with most prospect  
of finding some of them. He has  
100 all a large number of lots  
there still it is predicted that he will  
make a town of it.**

### Burned to the Ground.

### Good Family Leaving.

The alarm of fire Tuesday night  
was caused by the burning of the  
house owned by Dr. L. H. York and  
occupied as a residence by Zeb Hart-  
ton. The fire was discovered about  
half past ten, and in a very short  
time the building was wrapped in  
flames. It originated in the kitchen,  
and it is thought was caused by  
accident falling to the floor from the  
cooking stove. The alarm was sounded  
by shouts and screams and bells and  
yells. Willing hands rendered the  
tent aid and most of the furniture  
was safely carried out. After this was  
done there was nothing else to do,  
but stand by and watch the house go  
which it did. It was apart from  
other holdings fortunately, and nothing  
else was destroyed. It was in  
the Coules house, situated down  
the railroad, and was a substantial  
frame. House had moved in only  
last Friday. The family is now at  
Lewis' Garage. The property loss is  
about \$3000, partly covered by in-  
surance.

### Gene Ross.

This boy was found for want of  
time, and after a hearing was ordered  
by Police Judge to be taken to the  
Reform School in Lexington. Sheriff  
Salter took him Friday but  
the committee was irregular and  
on the following day he came back to  
Lester. The attorney general of  
the Reform School arrived to  
see to his release.

### The Pavilla Family.

This aggregation of grandees at  
home gave an entertainment at the  
Massey Opera House Monday night  
which the brightness, vivacity and  
elegance has not been equalled  
here. It's a wonderfully good celebra-  
tion of a father, mother and four  
children, and their singing, dancing  
and feats of art are sure to be  
worth going to see and hear. The  
Massey Opera House is the  
largest hall in town.

### SACRED WIND.

### MARRIED.

For a good while our correspondents  
up country way hid their  
marriage allusion to the frequent  
cases of George T. Burrows, who  
is said to be a well-known and prominent man  
in his section, came down to  
the day mentioned, went to the  
office of Clerk of Court, and  
had a marriage license issued  
to him.
